Answer: B,D

NEW QUESTION: 3

DRAG DROP

You support a Skype for Business Server 2015 environment. A customer reports that they are receiving alerts from the voice gateway and that outbound calls are failing due to no trunks being available. You need to configure performance counters to determine the reason that calls are failing. How should you configure the performance counters? To answer, drag the appropriate counter and server to the correct location or locations in the Solution area. Each voice counter and server may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content. Each correct answer is worth one point. Select and Place:

Answer:
