If you are interested in Soft test engine of NSE5_FSM-6.3 practice questions, you should know below information better.

NEW QUESTION: 1

The cumulative effect of a change in accounting estimate should be shown separately:

- A. On the income statement above income from continuing operations.
- B. On the retained earnings statement as an adjustment to the beginning balance.
- C. On the income statement after income from continuing

operations and before extraordinary items.

D. It should not be recorded separately on any financial statement.

Answer: D

Explanation:

Choice "d" is correct. A change in estimate is handled prospectively. No cumulative effect adjustment is made and no separate line item presentation is made on any financial statement. If a material change is being made, appropriate footnote disclosure is necessary. Choices "a", "b", and "c" are incorrect, per the above Explanation: .
