So you can easily pass Alibaba Cloud ACP-Cloud1 certification exam with the help of our PDF exam questions in just one try, Our exam materials can be trusted, Most important of all, as long as we have compiled a new version of the ACP-Cloud1 Training exam questions, we will send the latest version of our ACP-Cloud1 Training exam questions to our customers for free during the whole year after purchasing.

Many people have doubt about money guaranteed; they wonder how we will refund money if our ACP-Cloud1 VCE torrent is not valid, If you visit our website on our ACP-Cloud1 exam braindumps, then you may find that there are the respective features and detailed disparities of our ACP-Cloud1 simulating questions.

#### **NEW QUESTION: 1**

A healthcare company has several small outlying locations with extremely limited bandwidth to corporate headquarters. Maintenance of computers in these locations has improved

significantly with the recent addition of a Site Server and fully automated installations of operating systems using Deployment Solution. The only exception is with new computers or computers that need to have their OS drive replaced. The system administrator is unable to apply a new operating system to these computers remotely. What needs to be configured to enable fully automated imaging of these computers?

- A. configure PXE Services to start, create a preboot configuration to use PXE, send updated inventory to the CMDB
- B. enable Initial Deployment, configure Respond Using PXE, deploy the Automation plug-in to the site server
- C. create a PXE server and configure DHCP to forward requests to it, copy OS files to the remote location, build a valid preboot configuration
- D. enable Respond to New Computers, install PXE services on the site server, configure replication of the PXE configurations

**Answer: A**

## **NEW QUESTION: 2**

DRAG DROP

You have an Office 365 tenant that uses an Enterprise E3 subscription.

You must prevent five specific users from using Skype for Business Online to send instant messages to external users. All other users must be able to send instant messages to both internal and external users.

You need to configure the environment.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Answer:**

Explanation:

To block external communications for specific individuals, you should go to the Users page in the Skype for Business Admin center, select the users whose settings you want to disable, and then choose Edit.

After you enable external excommunications for everyone in your company, you can selectively block external communications for specific individuals using these steps. You then choose External communications, and then clear the options as appropriate before saving the changes.

## **NEW QUESTION: 3**

Your network contains an Active Directory domain named contoso.com. The domain contains two member servers named Server1 and Server2. All servers run Windows Server 2012.

Server1 and Server2 have the Failover Clustering feature installed. The servers are configured as nodes in a failover cluster named Cluster1.

You add two additional nodes to Cluster1.

You need to ensure that Cluster1 stops running if three nodes fail.

What should you configure?

- A. A file server for general use
- B. The possible owner
- C. Live migration
- D. The preferred owner
- E. Affinity - Single
- F. The cluster quorum settings
- G. The Scale-Out File Server
- H. The failover settings
- I. The host priority
- J. The Handling priority
- K. Quick migration
- L. Affinity - None

**Answer: F**
