NEW QUESTION: 1

Click the exhibit button.

The OSPF packets shown have been exchanged between two

neighbors. What state is the OSPF adjacency in?

- A. The adjacency is in the exchange state. The next step is to exchange link state request and link state update packets.
- B. The adjacency state is full. The routers are exchanging database description packets to notify each other that all link state advertisements have been received.
- C. The adjacency is in the ex start state. The routers have exchanged database description packets, but still have to negotiate the starting sequence number.
- D. The adjacency state is two way because both routers have received a database description packet.

Answer: C

NEW QUESTION: 2

An administrator adds a new SATA hard drive into a functional server and attempts to boot the server. The server will no longer boot into the operating system. The administrator checks all the connections and reboots the server. The server still will not load the operating system. Which of the following is the MOST probable cause?

- A. The jumpers have not been set on the hard drive.
- B. The hard drive is not compatible with the system board.
- C. The boot.ini file needs to be modified.
- D. The BIOS is set with the wrong boot order.

Answer: D

NEW QUESTION: 3

When an ad-hoc prescreening question is created for a requisition and not saved into the prescreening library what are two disadvantages to this approach for an organization?

- A. The question is not available for reuse on additional requisitions in a similar Job Family or Location.
- B. The question cannot be weighted.
- C. The question cannot be pulled into an advanced search and used as search criteria.
- D. The question is not available in the candidate tracking history.

Answer: A,D

Explanation:

Questions created in the Question library are available in the Question Library and can then be added in the Prescreening section of a requisition file. Questions created directly in a requisition are only available for the requisition and they are not available in the Question Library for other requisitions. If at a later date you use that same requisition to create a requisition template, the question that you created in the requisition will not be added to the Question library.
