**Answer: A**

**NEW QUESTION: 2**

Mean time between failures (MTBF) is the \_\_\_\_\_.

- A. anticipated amount of time until a solution component will fail
- B. point to which data has to be recovered after a failure
- C. amount of time it takes to recover a system from a failure
- D. plan to restore a system after a failure

**Answer: A**

Explanation:

MTBF is the agreed upon amount of time it takes to recover a system from failure.

**NEW QUESTION: 3**

You are managing a project in an organization is characterized by with rigid rules and policies and strict supervisory controls. Your project, sponsored by your CEO who is new to the company, is to make the organization less bureaucratic and more participative. You are developing your project management plan. Given the organization as it now is set up, as you prepare your plan, you can use which of the following organizational process assets\_\_\_\_\_.

- A. Organizational structure and culture
- B. Project management body of knowledge for your industry
- C. The existing infrastructure
- D. Guidelines and criteria

**Answer: B**

Explanation:

While you are managing a different type of project, the organization has managed projects before and therefore may have as part of its organizational process assets a project management template, which sets forth guidelines and criteria to tailor the organization's processes to satisfy specific needs of the project.
