You can use a non-system volume as a File History drive. This can be a volume on a hard drive in a computer, a Virtual Hard Drive (VHD) or an external USB drive.

You can also use a network share as a File History drive.

In the File History Control Panel item, you can click the "Select Drive" option. This will display a list of all detected drives that are suitable for use as the File History drive.

Under the list of drives, there is a link "Add Network Location". You can click the link and browse to or enter the path to the network share.
