NEW QUESTION: 1

Which of the following is a general control?

- A. Access to data is restricted to authorized users.
- B. All data is backed up and stored in a secure location.
- C. All data is encrypted and stored in a secure location.
- D. All data is encrypted and stored in a secure location.

Answer: A

Explanation:

General controls include organizational controls, such as a policy (an implementation control) that requires new programs and changes in programs after adequate testing) to be formally approved before being put into operation (implemented). This policy is reflected in the maintenance of approval and change sheets with appropriate authorizations.

NEW QUESTION: 2

Your network contains an Active Directory domain named contoso.com. The domain contains two servers named Nodeland Node2. Nodeland Node2 run Windows Server 2012 R2. Nodeland Node2 are configured as a two-node failover cluster named Cluster2.

The computer accounts for all of the servers reside in an organizational unit (OU) named Servers.

A user named User1 is a member of the local Administrators group on Nodeland Node2.

User1 creates a new clustered File Server role named File1 by using the File Server for general use option. A report is generated during the creation of File1 as shown in the exhibit. (Click the Exhibit button.)

File1 fails to start.

You need to ensure that you can start File1.

What should you do?

- A.** Increase the value of the ms-DS-MachineAccountQuota attribute of the domain.
- B.** Assign the computer account permissions of Cluster2 to the Servers OU.
- C.** Log on to the domain by using the built-in Administrator for the domain, and then recreate the clustered File Server role by using the File Server for general use option.
- D.** Assign the user account permissions of User1 to the Servers OU.
- E.** Recreate the clustered File Server role by using the File Server for scale-out application data option.

Answer: B

Explanation:

Explanation/Reference:

Explanation:

When using the failover cluster manager changes you make are not being done as the user but as the cluster machine account.
