NEW QUESTION: 1

A company has a main office and three branch offices. The company has 20 portable computers that run Windows 8.

Portable computer users can install local devices while in any branch office.

Your manager has instructed you to collect information about faulty devices and drivers within the company's branch offices.

You need to create a performance report that includes a list of incorrectly installed devices by using the least amount of administrative effort.

What should you do?

- A. Create and start a custom Data Collector Set on each portable computer.
- B. Start the System Performance Data Collector Set on each portable computer.
- C. Start the System Diagnostics Data Collector Set on each portable computer.
- D. Add counters from each portable computer to Performance Monitor, and then print the Performance Monitor output.

Answer: C

Explanation:

Section: Monitor and Maintain Windows Clients (13%) Explanation

Explanation/Reference:

System Diagnostics You can use this DCS when troubleshooting reliability problems such as problematic hardware, driver failures, or STOP errors. It logs all the information included in the System Performance DCS, plus detailed system information.

NEW QUESTION: 2
