You need to prepare the environment to ensure that the web
administrators can deploy the web apps as quickly as possible.
Which three actions should you perform in sequence? To answer,
move the appropriate actions from the list of actions to the
answer area and arrange them in the correct order.

Answer:
Explanation:

Explanation

Step 1:
First you create a storage account using the Azure portal.
Step 2:
Select Automation options at the bottom of the screen. The
portal shows the template on the Template tab.
Deploy: Deploy the Azure storage account to Azure.
Step 3:
Share the template.
Scenario: Web administrators will deploy Azure web apps for the
marketing department. Each web app will be added to a separate
resource group. The initial configuration of the web apps will
be identical. The web administrators have permission to deploy
web apps to resource groups.
