No errors or mistakes will be found within our CRT-251 practice materials, You will find them the best CRT-251 dumps, you can get from anywhere.

NEW QUESTION: 1

You administer an Azure Storage account with a blob container. You enable Storage account logging for read, write and delete requests. You need to reduce the costs associated with storing the logs. What should you do?

- A. Create an export job for your container.
- B. Execute Delete Blob requests over http.
- C. Set up a retention policy.
- D. Execute Delete Blob requests over https.

Answer: C

Explanation:

There are two ways to delete Storage Analytics data: by manually making deletion requests or by setting a data retention policy. Manual requests to delete Storage Analytics data are billable, but delete requests resulting from a retention policy are not billable.
