none of your business.

**NEW QUESTION: 1**

You have a main office and three branch offices that connect by using a WAN link.

You have servers that run Windows Server 2016 and client computers that run Windows 10 Enterprise.

You plan to configure BranchCache so that clients in the branch office use a server on their local network to retrieve cached content from the servers in the main office.

You plan to use Active Directory for the client computers to locate the hosted cache servers.

You need to configure the client computers to automatically locate a hosted cache server from Active Directory.

Which two settings should you configure? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

**Answer :**
