NEW QUESTION: 4

An organization has configured two single availability zones. The Auto Scaling groups are configured in separate zones. The user wants to merge the groups such that

one group spans across multiple zones.

How can the user configure this?

- A. Run the command `as-merge-auto-scaling-group` to merge the groups
- B. Run the command `as-join-auto-scaling-group` to join the two groups
- C. Run the command `as-update-auto-scaling-group` to configure one group to span across zones and delete the other group
- D. Run the command `as-copy-auto-scaling-group` to join the two groups

Answer: C

Explanation:

If the user has configured two separate single availability zone Auto Scaling groups and wants to merge them then he should update one of the groups and delete the other one. While updating the first group it is recommended that the user should increase the size of the minimum, maximum and desired capacity as a summation of both the groups.
