- D. service enforcement points
- E. agents

Answer: B,D,E

NEW QUESTION: 2

How should you register a plug-in for use in multiple organizations and in multiple stages?

- A. Register the plug-in for each organization individually on the server and configure each stage that the plug-in will operate in separately.
- B. Register the plug-in once for all organizations on the server and configure each stage that the plug-in will operate in separately.
- C. Register the plug-in for each organization individually on the server and create a single configuration that will be inherited by all plug-in stages.
- D. Register the plug-in once for all organizations on the server and create a single configuration that will be inherited by all plug-in stages.

Answer: A

NEW QUESTION: 3

Which of the following is NOT an organizational audit purpose?

- A. Are producers and supplier demand equal?
- B. Are internal customers getting appropriate information new products?
- C. Is technology being used to the fullest extent?
- D. How often does the received product match the one ordered?

Answer: A

Explanation:

Whether producers and supplier demand equal is NOT an audit purpose. Whether technology is being used to the fullest extent, are internal customers getting appropriate information new products, and how often does the received product match the one ordered are all audit purposes.
