Now, our OGA-3AB simulated test engine can make you feel the actual test environment in advance.

NEW QUESTION: 1

Contoso is a company that uses Azure

DevOps to build and deploy applications. The company has a subscription to Azure DevOps and is using the Azure DevOps CLI to manage the subscription.

Azure

DevOps is a set of practices that enables an organization to deliver software frequently and reliably. It is a combination of people, processes, and tools that enable an organization to build and deploy software more efficiently and effectively.
